Manoj Barmase

Full Stack Developer (MERN + AI Integration)
Pune, India | manojbarmase9@gmail.com | 8319548377
linkedin.com/in/manoj-barmase | github.com/manojbarmase

Professional Summary

Results-driven Full Stack Developer with over 15 months of experience architecting scalable MERN stack applications, designing secure REST APIs, and integrating low-latency AI/LLM models. Proven expertise in optimizing MongoDB databases, deploying containerized applications via Docker and CI/CD pipelines, and delivering high-performance, AI-powered solutions in Agile environments.

Technical Skills

Languages & Frontend: TypeScript, JavaScript (ES6+), React.js 19, Next.js 16, Vite, Tailwind CSS v4, HTML5/CSS
Backend & APIs: Node.js, Express.js, RESTful APIs, WebSockets, Python (FastAPI/Flask basics), Core Java
Databases & DevOps: MongoDB, PostgreSQL, Supabase, Prisma ORM, Docker, AWS/GCP, CI/CD, Git, Vercel
AI Integration & Tools: LLM APIs, Groq LPU, PDF parsing pipelines, Redis (Upstash/Vercel KV), Zod, RBAC, Postman

Professional Experience

Brandworks Worldwide (Revynox) Nov 2025 – Sep 2026
Full Stack Developer *Remote / India*

- Developed and maintained enterprise web applications using React.js, Node.js, and Express.js, delivering 6+ core B2B modules (e-signatures, inventory, and invoicing).
- Designed secure REST APIs and optimized MongoDB and PostgreSQL database schemas, ensuring ACID compliance and high-availability for over 10,000+ daily transactions.
- Integrated AI/LLM models and automated workflows into the development lifecycle, accelerating code delivery by 30% and reducing query latency by 40%.
- Collaborated closely with Product, UI/UX, and Engineering teams in an Agile environment using Docker, Git, and automated CI/CD deployment pipelines.

White Soft Info Apr 2025 – Sep 2025
Web Developer Trainee *Remote / India*

- Built and shipped responsive frontend interfaces using React.js and Tailwind CSS, improving cross-device compatibility and driving user retention by 25%.
- Engineered robust backend REST APIs and optimized data routing with Node.js, Express.js, and MongoDB, handling 5,000+ daily requests with 99.9% uptime.
- Identified and resolved full-stack performance bottlenecks, achieving a 35% improvement in overall application loading speed across browsers.
- Engaged in daily Agile cross-functional coordination to translate ambiguous business requirements into robust, scalable technical implementations.

Projects

Mankray - Enterprise Procurement & VMS | *MongoDB, Express.js, React.js, Node.js, Vite*
Live: mankray-app.vercel.app | Source: github.com/ManojBarmase/mankray-procurement-vms

- Architected an enterprise-grade Procurement System using the MERN stack to centralize vendor data, manage contract lifecycles, and automate purchasing workflows.
- Optimized MongoDB performance and designed secure REST API endpoints with granular Role-Based Access Control (RBAC) across 5 hierarchical user roles.
- Built a real-time analytics dashboard for spend tracking and integrated automated reporting pipelines to monitor upcoming contract expirations.

AI-Powered Mock Interviewer (Low-Latency AI) | *Next.js, Supabase, Groq LPU, Python/Node AI APIs*
Live: ai-interviewer-app-manoj.vercel.app | Source: github.com/manojbarmase/ai-interviewer-app

- Developed a full-stack AI application integrating LLM APIs and custom parsing pipelines to ingest candidate CVs and dynamically generate personalized interviews.
- Resolved TTFT performance bottlenecks by migrating the conversational engine to Groq LPU, achieving ¡400ms real-time AI response latency.
- Secured serverless backend endpoints via Redis rate-limiting middleware (10 req/min) and deployed containerized workflows using Docker and Vercel/Cloud platforms.

Education

Rajiv Gandhi Proudyogiki Vishwavidyalaya (RGPV) 2020 – 2024
B.Tech in Computer Science *CGPA: 7.57/10*

Certifications

Web Development Certification - Infosys Springboard (Dec 2024) | **Core Java Training** - Sage University (Jan 2022)
